Technical Skills

- Programming Languages - C, C++, Node js, Express js
- web Languages - HTML, CSS, JAVASCRIPT
- Frameworks and Libraries - React js, Tailwind css, Bootstrap
- Databases - Mongodb and Mysql
- Tools and Softwares - VsCode, Postmain, Netlify, Github, Render

Education Background

- Madhav Institute Of Technology & Science, Gwalior (M.P)
  Master of computer application
  session : (2023 - 2025)

- Optimus College Of Higher Studies, Gwalior (M.P)
  Bachelor of Computer Application
  session : (2020 - 2023)

- Kendriya Vidyalaya No.2 Afs Maharajpur, Gwalior (M.P)
  Higher Secondary Education
  session : (2019 - 2020)

Projects

🔗 **React.js Movie App**   - (github link)

- Developed a dynamic movie application using React.js and integrated the OMDB API to fetch real-time movie data
- Utilized Tailwind CSS for responsive, mobile-first design and implemented state management with React Hooks and Context API
- Deployed the application using Github/Netlify, ensuring seamless CI/CD integration and optimized performance

🔗 **Gym Managent System**   - (github link)

- Developed a comprehensive gym management system using the MERN stack (MongoDB, Express.js, React.js, Node.js) for full-stack development
- Implemented user authentication and role-based access control, ensuring secure and personalized user experiences
- Deployed the application on Render.com for backend services and Netlify for front-end hosting, ensuring high availability and performance.

🔗 **Youtube Clone**   - (github link)

- Developed a YouTube clone web application using React.js and integrated Rapid API for fetching and displaying video content
- Implemented features such as video search, playback, and user interaction functionalities, enhancing the application's usability

Achievements

- Secured first position in 4th semester BCA University Exam
- Achieved second position in Computer Efficiency Test at Optimus College Of Higher Studies

Certification

- HTML, CSS, and Javascript for Web Developers - coursera
- React Basics - coursera
